Click [here](#) to authenticate yourself so you can access this program.

Note that you must reauthorize yourself whenever you close all of your web browser windows.

Note: If the authentication website has just now accepted your password (or at least didn't complain that it is invalid), but returned you to the same web page here that you saw before you entered your password, then it's possible that:

1. Cookies are disabled on your web browser.
If this is the case, please enable them and log in again so that NACS' WebAuth program can store your authentication cookie for access by this program.
2. Your web browser settings are causing your browser to store a copy of this page in its cache directory on your hard drive, without bothering to contact our server as to whether a newer page is available.
You can easily check for this by clicking your browser's *Reload* button.
If the program then responds correctly, you need to change your web browser's caching preferences. Here are directions for **Netscape** or **Internet Explorer**:
Netscape: Click *Edit / Preferences* on the menu bar, and then the "+" next to the category *Advanced*. Then click on the sub-category *Cache*, and make sure **Every time** is selected under *Document in cache is compared to document on network*.
Internet Explorer: Click *Tools / Internet Options...* on the menu bar, and then the *Settings...* button under the *General* tab. Make sure **Every visit to the page** is selected under *Check for newer versions of stored pages*.

- View any single class roster by clicking on the 5-digit; a new web browser will open displaying the roster..

- Expand the top portion of your screen by clicking on "Show Options & Seating." The default sort is by the last name of the student but you can change to any of the other options listed., check your waiting list by checking the box next to "On Waiting List."
